

# I want to build a Fence OR A WALL

- Fences and walls in the Front Yard shall not exceed four feet in height and in the minimum front yard fences shall be 50% open vs. structural.
- Any fence or wall in the secondary front yard, side or rear yard shall have a maximum height of six feet.
- No Fence may be constructed within any easement (Utility, walking etc.).
- Fences for pools are mandatory and have special requirements.  
Please speak with Zoning Officer at (610) 966-2503
- Retaining Walls over four feet in height (bottom of footing to top of wall) and any wall supporting a surcharge shall require a building permit in addition to this zoning permit.
- A plot plan is required. \*\*

# PLOT PLAN FOR FENCE PERMIT

Show all dimensions of entire property (length, width and square feet of entire lot). Identify streets adjacent to property. Show all buildings with size dimensions (length, width and height) within property lines and indicate whether the buildings are existing or proposed. Show the distance from building to property lines on all sides in relation to property right-of-way, width of right-of-way, front, side and rear yard setbacks, easements, and sight triangles. Show any property corner markers.

Draw Plot Plan Here

The property owner/applicant is responsible for the accuracy of this plot plan and will be held accountable for submission of incorrect information relative to plans and dimensions.
