

BOROUGH OF MACUNGIE SEWER LATERAL VIDEO INSPECTION REPORT

Instructions: This form is to be filled out by the Licensed Master Plumber conducting the video inspection and submitted to the Borough of Macungie with the video, at a minimum of one week prior to settlement. This report will assist the Borough in determining whether the sewer lateral is in compliance with the Borough of Macungie Sewer Ordinance No. 2018-02. The Borough may reject the video and ask for resubmission if the video does not meet requirements below.

VIDEO REQUIREMENTS:

- Clear image
- Show address of property on video
- Show date and time stamp on video
- Running foot or time marker visible
- Briefly stop at joints to show integrity
- Clearly show cleanout or access point
- Identify where building drain ends and sewer lateral begins
- Show lateral from structure to Borough main connection
- If water is used, turn off the water when the camera gets to the main and wait a few minutes for the flow to stop. If the flow doesn't stop, then pull camera back through the lateral slowly to check for leaks. (Use only the minimum amount of water to assist the camera to move through the lateral.)
- Videos must be provided in DVD or USB format. No emailed videos will be accepted.
